

2020 Community Surveys Recap for the City of Forsyth

This document is a summary of the 2020 CEDS community surveys. These surveys were designed to ascertain local findings for the five-year CEDS document being created by SEMDC, and to get community feedback as to what the current state of the community is, how things have changed from last year, and what projects are priorities to be completed for the following year(s).

This year it was especially important to seek community feedback because of the COVID impacts on our region. SEMDC is working with citizens and communities to find ways to maximize positive impacts and mitigate negative ones. The more individuals in each community understand economic change and impacts, proactively plan, and communicate within the community and region, the better the outcomes will be.

This document summarizes the thoughts, ideas, and projects discussed at the community meeting.

Working Groups

In this second activity, the group was asked to discuss projects that would assist in addressing

some of the weaknesses or needs in the community. At the end of the identification of meaningful projects, the group was given three stickers and asked to vote for specific projects. They were allowed to place their stickers as they chose with one sticker by three various projects or all their stickers by a particular project.

Economy and Housing

Encourage Development of Commercial Real Estate

Existing stock of commercial real estate sites is limited to non-existent. Evaluate current sites and encourage re-development or initial development of move-in ready sites.

Workforce Re-training Opportunities

Offer retraining to employees affected by coal impacts.

Market Job/Workforce Opportunities

Find non-traditional ways to educate the public about skilled trades types of jobs. Begin at the High School/Middle School level. Utilize job fairs, apprenticeship programs, One MT program.

Expand Tourism and Marketing Opportunities

Placement of signs throughout County to direct traffic off interstate and take tourists across and throughout the County to see historical sites. Establish signage, improve internet presence, improve facilities, improve boat launch, promote Quigley event.

Market Historical Features Near Forsyth/Geocaching

Set up geocaching opportunities, publicize historical sites, establish bus tours with PA systems during peak tourism times.
